FYI—a more finalized version. Please let us know if you have any additional thoughts/comments.

Thanks so much all for your input and help! Mai

Thanks so much all! Really appreciate the input, and these are helpful points, including #1. I think for

Ex. 5 AC/AWP/DP

I'll send around a more finalized version for your reference that incorporates this later this week. The changes should be minor ones from the draft of GHG comments you've all seen from last time.

Thanks again, Mai

Hi Mai,

Here are a few thoughts:

Ex. 5 AC/DP

I hope this doesn't just muddle things more from you! And let me know if you could use any more help or information gathering on this.

-Melissa

Hi Melissa, hope you are well. Time flies! I really appreciate your comment and feedback on the

Ex. 5 AC/DP

Ex. 5 AC/AWP/DP

emissions. This EIA site says:

Nuclear power reactors do not produce direct carbon dioxide emissions

Unlike fossil fuel-fired power plants, nuclear reactors do not produce air pollution or carbon dioxide while operating. However, the processes for mining and refining uranium ore and making reactor fuel all require large amounts of energy. Nuclear power plants also have large amounts of metal and concrete, which require large amounts of energy to manufacture. If fossil fuels are used for mining and refining uranium ore, or if fossil fuels are used when constructing the nuclear power plant, then the emissions from burning those fuels could be associated with the electricity that nuclear power plants generate.

Ex. 5 AC/AWP/DP

Sorry the email got a little long—please let me know what you think. Happy to schedule a call if that is preferable too.

Thanks!

All,

Thank you for the very helpful meeting earlier this week.

Ex. 5 AC/AWP/DP

Ex. 5 AC/AWP/DP

these draft responses. If you could provide any edits in the next day or two—maybe by **Friday noon** if that works-- that would be much appreciated. Please let me know though if you'd like more time for review.

Thanks!

Subject: Follow-Up on Yesterday's GHG/ NEPA Meeting for Dewey Burdock

Hello All-

Thank you all for meeting yesterday to discuss GHG reporting requirements and updates to NEPA. Below are my answers to the questions raised during our meeting. Please let me know if you have any additional questions.

Clarification on recent lawsuits challenging NEPA update:
